Logixal is known to deliver superior total cost of ownership (TCO) in Re-platforming / Upgrades as well as Greenfield implementation projects.

### Senior Flutter Developer:

Senior Flutter Developer is responsible for requirement analysis, design, construction, testing, and implementation of business and technical information technology solutions through application of appropriate software development life cycle methodology and **Flutter, Dart & JavaScript** tech stack.

#### Responsibilities:

- Design and develop cross-platform mobile applications (Android, iOS, Web, etc.) using Flutter and Dart.
- Experience with FlutterFlow is a plus
- Implement responsive and adaptive user interfaces to deliver seamless user experiences across various devices and screen sizes.
- Write clean, maintainable, and efficient code, optimizing application performance for low latency and high responsiveness.
- Translate UI/UX designs into high-quality Flutter code, collaborating with designers and stakeholders to understand requirements and technical specifications.
- Integrate third-party APIs, services, and libraries, ensuring seamless backend communication via RESTful APIs or other protocols.
- Ensure the smooth functioning of applications across multiple platforms, including managing platform-specific requirements.
- Publish and maintain applications on the App Store, Google Play Store, or other distribution platforms.
- Apply strong object-oriented programming (OOP) concepts, design patterns, and coding standards.
- Communicate effectively with clients, team members, and managers, providing regular updates on progress and addressing issues promptly.

#### Qualification and Experience:

- Minimum 4+ years of experience in Flutter and Dart development.
- Proven expertise in building cross-platform mobile applications using Flutter, Dart
- Extensive knowledge of object-oriented programming (OOP) principles and software design patterns.
- Familiarity with coding best practices and performance optimization techniques.
- Experience in integrating APIs and working with backend systems.
- Exposure to eCommerce, Retail, Digital Applications, or Digital Banking domains is desirable.
- Bachelor's degree in computer science or a related field (Master's preferred).
- Proficiency in SDLC methodologies (Agile/Waterfall).
- Strong problem-solving and analytical skills.
- Excellent verbal and written communication skills in English.
- Ability to lead teams and influence decision-making with a solution-oriented mindset.
- Strong customer orientation and visionary thinking.

Location: **Mumbai / Bengaluru**
